THE OPPORTUNITY

The Piazza is a single-storey, 10,000 SF free-standing retail mall in the heart of Little Italy. Built in 1989, it was purchased one year ago by a group of community investors interested in revitalizing this pivotal commercial property.

Visionary entrepreneurs are wanted to transform The Piazza into Edmonton's newest curated retail destination. Ideal partners will be imaginative, independent and inventive business people committed to providing custom, quality products and experiences for discerning shoppers.

We understand this is an unusual time and are prepared to work creatively with you to maximize opportunities and support the viability of your enterprise. Tenant incentives and improvement funding are distinct possibilities.
